Product Description

330930-060-01-CN Bently Nevada 3300 XL Standard Extension Cable Ready to Ship

Bently Nevada 330930-060-01-CN 3300 XL Standard Extension Cable is a shielded cable that connects a 3300 XL probe to a 3300 XL Proximity Sensor. It is designed for use in harsh industrial environments and is resistant to noise, vibration, and EMI. The cable has a length of 6 meters (19.7 feet) and is terminated with a male and female connector on each end.

3300 XL Standard Extension Cable is made with high-quality materials and construction to ensure reliable performance in demanding applications. The cable is shielded with a braided copper outer layer to protect against EMI interference. The inner conductors are made of stranded copper wire for maximum flexibility and durability.
