

PPS 3900VP-01-10 3900 Rosemount PH Sensors PH ORP Sensor With Variopol VP Connection

Our Product Introduction

for more products please visit us on achieversinstruments.com

Basic Information

- Place of Origin: Singapore
- Brand Name: ROSEMOUNT
- Certification: ATEX
- Model Number: 3900VP-01-10
- Minimum Order Quantity: 1
- Price: negotiate
- Packaging Details: carton
- Delivery Time: stock
- Payment Terms: T/T
- Supply Ability: 100pcs per month

Product Specification

- Manufacture: ROSEMOUNT
- Product No: 3900VP-01-10
- Operating Temperature: -10° To 100°C (14° To 212°F)
- Electrolyte Volume: 0.8 Oz. (25 ML), Approximately
- Input: One Sensor Input
- Process Connection: Front Facing: 3/4" And 1" MNPT; Rear Facing: 1" MNPT
- Highlight: **PPS Rosemount PH Sensors, Rosemount PH Sensors VP Connection, 3900VP-01-10**

Product Description

Rosemount 3900VP-01-10 3900 General Purpose pH/ORP Sensor with Variopol (VP) Connection

The Rosemount 3900VP General Purpose pH Sensor / ORP Sensor features a double junction reference that aids in the pH/ORP sensor's resistance to harsh environments and helps prolong sensor life. The double junction protects the reference element from poisoning ions - such as ammonia, chlorine, cyanides, and sulfides. The pH/ORP sensor is made with a porous Teflon® junction. The robust pH/ORP sensor design makes the Rosemount 3900VP pH/ORP Sensor a reliable choice for a wide range of aqueous solutions found in pipelines, open tanks or ponds.

Specifications

Operating Temperature—10° to 100°C (14° to 212°F)

Max. Operating PressureMaximum Pressure: 790 kPa [abs] (100 psig) at 100°C (212°F)

Materials of ConstructionStainless steel, glass, Teflon®, polyphenylene sulfide (PPS), EPDM and silicone (If selecting the ORP sensor, an additional wetted material is Platinum.)

Process ConnectionFront facing: 3/4" and 1" MNPT; Rear facing: 1" MNPT
