

## 1m Bently Nevada Proximity Probe Dual Probe Vibration Sensor 26530-12-10-00-000-309-00-03-01

### Our Product Introduction

for more products please visit us on [achieversinstruments.com](http://achieversinstruments.com)

#### Basic Information

- Place of Origin: USA
- Brand Name: Bently Nevada
- Certification: ATEX
- Model Number: 26530-12-10-00-000-309-00-03-01
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: carton
- Delivery Time: Negotiable
- Payment Terms: T/T
- Supply Ability: 100pcs per month

#### Product Specification

- Manufacture: Bently Nevada
- Product No: 26530-12-10-00-000-309-00-03-01
- Probe Lead Length Option: 1.0 Metre
- Adapter Thread Option: Adapter Not Required
- Velocity Transducer Type: No Velocity Transducer
- Agency Approval Option: No Approvals
- Highlight: **1m Bently Nevada Proximity Probe, Dual Probe Bently Nevada Proximity Probe, 1m bently nevada vibration sensor**

## Product Description

# 26530-12-10-00-000-309-00-03-01 Bently Nevada Dual Probe Vibration Sensor

The Dual Probe Transducer System consists of a proximity probe and a seismic or Velomitor\* transducer installed at approximately the same point in a common transducer housing. This transducer system is capable of making four separate measurements:

Shaft relative radial position (displacement) relative to the probe mounting location, measured by the proximity probe; Shaft relative radial dynamic motion (vibration) relative to the probe mounting location, measured by the proximity probe; Machine casing absolute vibration measured by the seismic vibration; and Shaft absolute motion represented by the summation of the seismic signal (after integration to displacement) and the shaft relative displacement.

The Dual Probe Transducer System provides the best measurement data when transducer housing is mounted on a portion of the bearing housing or cover that is mechanically referenced to the bearing.

For complete machinery monitoring diagnostics using orbit analysis and shaft centerline position information, two Dual Probe assemblies in an X-Y configuration are required per radial bearing.

A probe support/oil sleeve is available as an option. It protects the transducer system from oil and provides additional support for the probe sleeve

#### FAQ of Achievers

Q:Are the Products Genuine OEM Units?

A: These items have been certified by Achievers Automation Limited to be genuine OEM Units obtained through OEM or independent third-party channels.

Q:How will you arrange shipment?

A: We can arrange shipment based on your request. We have cooperated forwarder who can arrange shipment via FedEx, DHL,TNT with good price.

Q:What is the warranty of goods?

A: One-year Warranty.
